

For Orange County Commissioner • District 3

Dear friends,

I hope this correspondence finds you and your loved ones well.

Although these have been trying times for all of us, the viral crisis will end and we will focus on a return to our daily routines.

While having refocused my efforts on our community and away from my campaign during the quarantine, I have kept busy securing and delivering food and helping to obtain devices so our children can succeed at distance learning. Now, I humbly ask you for your help. In an effort to have my name placed on the ballot for District 3 Commissioner, I need help with petitions. By completing, signing and dating the petition, I can reallocate the qualifying fee of over \$3,000, to instead help me communicate with District residents. This only allows me to be placed on the ballot, and does not mean you are voting for me. (Although I hope you do)

In advance, I thank you for the consideration and opportunity to serve our district and our community, once again. Please share with your friends who live in District 3.

The attached link will take you to the required form. The signature and date must be “drawn” and you will see the option on the help sheet,. Please fill out the fields and your birthdate can be used in the voter registration number field.

Link to forms:

Do not download the program. Use ***open in browser.***

To fill out the form, if you have a touch screen device please see the included step by step guide,

This is the first time these forms can be completed digitally, but the requirement that the signature and date be “drawn” is non-negotiable. This is why the instructions lead you to creating a digital signature, delete it, then create the drawn date. This is actually the easiest way to correctly complete the form.
